

# AFRICAN SWINE FEVER

December 2018

## STAKEHOLDERS FROM THE CANADIAN PORK INDUSTRY ARE COMING TOGETHER TO PREVENT ASF FROM AFFECTING THE CANADIAN PIG HERD

### COLLABORATION IS KEY!

The Canadian Pork Council is privileged to work with multiple partners to prevent African Swine Fever from infecting the Canadian pig herd:

- Provincial pork organizations
- Canadian Food Inspection Agency
- Canadian Border Services
- Animal Nutrition Association of Canada
- Animal and Plant Health Inspection Service (US)
- Deans of the faculties of veterinary medicine
- Canadian Veterinary Medical Association
- Community for Emerging and Zoonotic Disease
- Canadian Association of Swine Veterinarians
- National Pork Producers Council (US)
- Swine Health Information Center (US)

## INFORMING PORK PRODUCERS, SMALL-SCALE PRODUCERS AND PET OWNERS ABOUT THE THREAT OF AFRICAN SWINE FEVER

- ✓ Series of informational documents
- ✓ Participation in provincial information sessions
- ✓ Outreach on social media
- ✓ Section of CPC website dedicated to ASF

## ACTIONS TO MINIMIZE THE RISKS OF ASF INFECTING THE HOG HERD

- ✓ Hazard-specific plan for African swine fever
- ✓ Risk assessment of imported feed ingredients
- ✓ Testing
- ✓ Sharing outbreak information in other countries

## OUTBREAK MITIGATION PREPAREDNESS

- ✓ Exercise on zoning in case of an outbreak
- ✓ Tabletop exercises
- ✓ Discussions to address wild pigs in Canada

## COLLABORATION WITH VETERINARY COMMUNITY, IN CANADA AND ABROAD

- ✓ Information sessions on disease recognition
- ✓ Raising awareness among veterinarians
